

ANC-01

Noise canceling headphone User Manual

Instruction

1. Insert AAA(Alkaline) battery to ANC01 before use.
2. LED lights on indicates ANC01 is ready to connect to a two way radio and use.
3. Turn off ANC01 when not in use to save battery life.
4. LED starts flashes when battery low, please change battery immediately.
5. When not use ANC01 for a long period of time, please remove battery to avoid the damage caused by battery leaking.

Specification

Product	Noise canceling headphone
Product Model	ANC01
Headset type	Noise canceling
Wearing type	Headband
Power source	Standard AAA Alkaline battery
Current Consumption	$\leq 12\text{mA}$
Connection cable	Length: 1.2M
Connector socket	Standard two way radio 6-pin socket
Frequency range	20Hz ~ 18KHz
Sensitivity differential(left & right)	Less than 3dB(at 1KHz 1mw)
Close-loop voltage gain	6dB F=400Hz
Antenna isolation	$\geq 45\text{dB}$ Po=1mW F=1KHz
S/N rate	< -95dB
Impedance	32-500 ohm (power off)
Output power	$\geq 40\text{mW}$ THD=10% F = 1KHz
Total harmonic distortion	$\leq 1\%$ F=1KHz Po=1mW
Noise reduced	$\geq 24\text{ dB}$ 92%
Size	200*180*83mm
Weight	373g(headset only) 513g(with PPT)
LED status	Solid ON when working, flashing when battery low

Thank you for purchasing ANC01 noise canceling headphone, ANC01 is a foldable, headband type active noise-canceling headphone, with the world-leading INCTM noise reduction technology, ANC01 is able to reduce the noise up to 92%, eliminates all the noises even under high noisy environment and brings you an extremely quiet and comfort hearing experience. Perfectly use for firefighters, military, and policemen.

Package contents

Noise-canceling headphone x 1

Connecting cable(with standard 5-pin connector) x 1
