Wired Ear Muff

- Outstanding noise reduction microphone transmits clear and crisp audio, even in a noisy environment. The adjustable, comfortable headband is comfortable for hours of use.
- Comfort earpads can be changed for hygiene.
- Aviation style boom microphone with flexible arm.
- NRR: -23dB.

BRAIDED FIBER Surveillance Kit

- Lapel Mic Style (1 and 2 - wire) with noise-reducing mic element.
- Flexible to change the speaker's earpiece.

Economy style earpiece

- Kevlar reinforced cable and durable strain reliefs protect cables from excessive bending and pulling.
- High-quality speaker microphone delivers loud and crisp audio.

Superior earpiece with durable PTT

- Kevlar reinforced cable and molded strain reliefs protect cables from excessive bending and pulling.
- Double PTT switches improve reliability and help the switch to work perfectly no matter where you press it.

2 wire earpiece with PTT

- Kevlar reinforced cable and molded strain reliefs protect cables from excessive bending and pulling.
- Newly designed mic housing uses high quality transmit capability.

Dual-Bone Conduction headset

- Dual-Bone Conduction headset temple speakers allow you to hear 2-way radio audio and background sound in the battlefield.
- Noise-reducing boom mic transmits good quality audio even in high noise area.
- Waterproof PTT (PTT16) and waterproof PTT adapter (PTT16A) for an external finger PTT are optional.
